

FOSTERING SUCCESS PROGRAM COLORADO STATE UNIVERSITY

***About 10% of FSP students report multiple independent backgrounds**

On average, there is a
12% INCREASE
of new FSP eligible students that enroll at CSU each Fall.

The Fostering Success Program was so helpful to me while I was at CSU. It gave me a sense of community and support on campus and helped me build skills that were useful after graduation.”

The Fostering Success Program at CSU is a donor and volunteer driven community of over 250 students from independent backgrounds. Students are supported at CSU through scholarships, fun events, academic guidance, and numerous university resources.

MISSION

Utilizing a solution focused approach, we provide academic, financial, personal, and career support. By co-constructing a web of resources, students create an empowered and confident community working toward graduation.

VISION

The Fostering Success Program builds a sense of belonging and support among independent students to foster growth and success in college and beyond.

MENTORING

Partnering with Educate Tomorrow, FSP is able to provide mentoring services in which an upperclass independent student guides and supports new first-year and transfer independent students through their first year at CSU.

CARE PACKAGES

A tradition of the Fostering Success Program is sending care packages to students a couple times each semester. The care packages are full of helpful items like notebooks, binders, pencils, snacks, and gift cards.

I wanted to take a moment to thank you for the recent care package I received on behalf of FSP. I recently received my package and I was nearly brought to tears with the hand written note that came along with it. I am beyond thankful for your kind words and actions. These are the days I feel most alone and I couldn't help but feel warm and loved, so thank you for sending such kind and thoughtful gifts."
